

A man with short brown hair and a beard, wearing a grey polo shirt and a bright yellow high-visibility safety vest, is pushing a large black Rubbermaid trash bin on wheels. He is in a warehouse setting with tall blue metal shelving units filled with cardboard boxes and pallets in the background. The bin has the Rubbermaid logo and some text on it.

MATERIAL HANDLING RANGE GUIDE

DESIGNED TO OUTLAST

Durable recycling solutions that take the strain

With material handling solutions designed to outperform and outlast the competition, at Rubbermaid Commercial Products, we strive to save businesses money, help them protect staff from injury and support their sustainability targets by providing products that are built to last.

This focus on durability means that your business can buy better and reduce the unnecessary waste created by cheaper, less durable alternatives. In fact, we are so confident in the quality of our products that, for added peace of mind, all of our trucks, trolleys and carts come with long-term warranties.

WASTE TRANSPORTATION

With waste accumulating in many different places throughout your facility, it will need to be aggregated and moved to your central collection point, ready to be taken off-site.

Our range of durable, high-capacity trucks and trolleys have been ergonomically designed to make this process as efficient and comfortable for your cleaning and maintenance teams as possible, while helping you to keep waste streams separated to ensure you can maximise your recycling rate.

HIGH CAPACITY TRUCKS

Large volume, mobile containers that help your team to collect, sort and transport waste and other materials with ease.

MEGA BRUTE®

A high-capacity and highly manoeuvrable, versatile collection and sortation system.

High capacity – can hold and transport up to 450 litres

Sortation options – help to support recycling efforts

Highly manoeuvrable – fits through standard 36-inch doorways and easily on and off most lifts

Easy handling – rear doors allow for easy removal or loading of heavy liners

Perfect for:

Transporting waste to external containers | Moving linen | Holding cleaning equipment

TILT TRUCKS

A truck that offers industrial grade strength and allows for controlled dumping by a single user.

Versatile – available in multiple sizes and load capacities

High capacity – can hold and transport up to 567 kilograms

Unique steering wheel – enhances manoeuvrability

Built to fit – steer through standard commercial doorways and into lifts easily

Non-marking casters – reduce the need for touch-up cleaning

Constant force design – allows for controlled dumping by a single user

Simple to maintain – easy to clean

Perfect for:

Transporting waste | Moving heavy loads | Warehousing environments

10
YEAR
LIMITED
WARRANTY

UTILITY TROLLEYS

A robust and reliable range of trolleys made to transport up to 340kg of materials, equipment and supplies in the toughest of environments.

3
YEAR
LIMITED
WARRANTY

CUBE TRUCKS

An easy-to-maintain truck available in multiple load capacities and sizes. Designed for easy storage and transportation of heavy loads.

CLEANING MOBILITY

Versatile carts and trolleys designed to support your cleaning and maintenance teams to move quality cleaning forward.

X-CARTS

Lightweight, flexible and easy-to-move carts for transporting materials and waste around your facility.

Large capacity – available in 150 and 300 litre sizes

Collapsible frame – facilitates efficient storage and reduces space needed by up to 75%

Versatile configuration – to support 2-stream sorting of materials

Durable vinyl bag – tear-resistant and hard-wearing for heavy duty use

Discreet colour – blends into most environments and provides a clean, professional look

Smooth wheels – for easy manoeuvrability and quiet operation

Storage pockets – for small cleaning and maintenance items

Perfect for:

A variety of settings | Transporting linen | Moving waste

CLEANING TROLLEYS

A versatile range of multifunctional cleaning carts fit for any facility. Designed with a high capacity to minimise trips to the supply room and with ergonomic handling to maximise productivity.

40% more storage space – minimises trips for supplies and maximises productivity

Mop bucket platform – designed for easy transportation of cleaning equipment

Water and chemical resistant provides easy maintenance and long-lasting quality

Durable 8" ball bearing wheels and 4" casters – for easy manoeuvrability and quiet movement

Interchangeable handles and removable platform – ability to reduce the footprint of the cart

Expansive storage space, removable bins and caddies – reducing the need for multiple supplies trips and improving productivity

Compact size – fits great in space-constrained areas; with a high capacity-to-footprint ratio, only 22" wide

Models available with locking security hood – keeps products secure

Our high-capacity trucks and cleaning mobility solutions are highly adaptable and can be used in almost any environment, from facility management teams to industrial facilities, hospitals, offices and transport hubs.

Speak to one of our experts

Our team of experts are on hand with support and advice on upgrading your material handling solutions so you can ensure effective recycling from internal bins to the containers collected by waste collection companies.
