

Material Handling Range Guide

TRUCKS, TROLLEYS AND CLEANING MOBILITY

Designed to Outlast

DURABLE SOLUTIONS DESIGNED TO TAKE THE STRAIN

With material handling solutions designed to outperform and outlast the competition, at Rubbermaid Commercial Products, we strive to save businesses money, help them protect staff from injury and support their sustainability targets by providing products that are built to last.

This focus on durability means that your business can buy better and reduce the unnecessary waste created by cheaper, less durable alternatives. In fact, we are so confident in the quality of our products that, for added peace of mind, all of our trucks, trolleys and carts come with long-term warranties.

Waste Transportation

With waste accumulating in many different places throughout your venue, it will need to be aggregated and moved to your central collection point, ready to be taken off-site.

Our range of durable, high-capacity trucks and trolleys have been ergonomically designed to make this process as efficient and comfortable for your cleaning and maintenance teams as possible, while helping you to keep waste streams separated to ensure you can maximise your recycling rate.

High-Capacity Trucks

Large volume, mobile containers that help your team to collect, sort and transport waste and other materials around your venue with ease.

MEGA BRUTE®

A high-capacity and highly manoeuvrable, versatile collection and sortation system.

High capacity

Can hold and transport up to 450 litres

Sortation options

Help to support recycling efforts

Highly manoeuvrable

Fits through standard 36-inch doorways and easily on and off most lifts

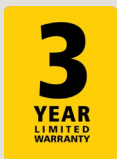

Easy handling

Rear doors allow for easy removal or loading of heavy liners

Perfect for:

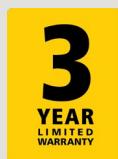

Transporting waste to external containers | Moving liners | Holding cleaning equipment

TILT TRUCKS

A robust and reliable range of trucks made to transport up to 340kg of material, equipment and supplies in the toughest of environments.

CUBE TRUCKS

An easy-to-maintain, high-capacity truck available in multiple load capacities and sizes. Designed for easy transportation of heavy loads.

Linen and Waste Transportation

Versatile carts and trolleys designed to support your cleaning and maintenance teams to move quality cleaning forward.

X-CARTS

Lightweight, flexible and easy-to-move carts for transporting materials and waste around your facility.
